

United VMS Version 6.3 End of Life Notice

July 18, 2018

United VMS V6.3 was first released in Q2 2013 and has been expanded since then with Service Packs and Software Updates. The 6.3 versions were followed by releases of United VMS versions 6.4, 7.0 and 8.0 which introduced many exciting features, improved performance, and enhanced integration with other systems and edge devices.

The FLIR software lifecycle policy includes 3 years of support and an additional 2 years of Expansion-Only, for a total lifetime of 5 years. Since the 5-year life cycle period has expired, **FLIR announces the end of life of United VMS version 6.3 products.**

New versions of United VMS have many benefits including new and improved features, better performance, more robust applications, and bug fixes. To troubleshoot issues, v6.3 customers are advised to review the latest UVMS release notes, online Knowledge Base, and FLIR YouTube channel for solutions. Those with a valid SSA are entitled to free UVMS software upgrades and on-going technical support for newer UVMS versions.

FLIR offers and sells new base licenses exclusively for United VMS versions 7.0, 8.0, or later.

FLIR will be releasing new fixes and other software modifications exclusively for United VMS versions 7.0, 8.0, or later.
