

PEOPLE COUNTING AND TRACKING

FLIR BRICKSTREAM 3D GEN 2 OUTDOOR MOUNT

The **ACC-ODT-2500** is an articulating mount intended for outdoor mounting Brickstream 3D Gen 2 video analytics appliances in outdoor locations where wet conditions may be present. The Brickstream 3D Gen 2 is attached to a bracket inside the main housing of the mount by four 14"-20 bolt. The ACC-ODT-2500 can rotate on both X and Y-axis, thanks to a RAM arm attached at the back of the mount which can be positioned by tightening the screw. The V shape base of the ACC-ODT-2500 mount contains two holes for affixing to the mounting surface with a bolts or screw (not included). Hose clamps are provided for bar or tube mounting.
