◀ *SeaFLIR*® **280-HD**

*The New Standard in Compact,  
High Definition, Long-Range Imaging*

# THE UNFAIR ADVANTAGE

With range and targeting performance unrivalled in its class, SeaFLIR 280-HD is the high performance maritime imaging system you need to identify and track smugglers, terrorists, or any other threat – day and night, and on the roughest seas.

Radar can tell you that other vessels are out there, but you need clear, detailed imagery to determine the threat's intent quickly and respond effectively. With all high definition imaging and powerful optics, SeaFLIR 280-HD reveals the details necessary for long range vessel detection, identification, and threat assessment.

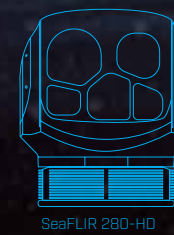

Reliable and ready when you are, SeaFLIR 280-HD is built to survive and stand watch with you 24/7. When long-range, high definition vision is critical to your mission success, the choice is clear: SeaFLIR 280-HD.

For More information and product videos : [www.flir.com/SF280](http://www.flir.com/SF280)

- Large system performance in a rugged, compact package
- Multispectral High Definition Imaging enables long range Identification and broad area coverage 24/7
- Lightweight turret (<55 lb) simplifies installation and reduces stress on mounting structures
- Flexible Ball Up/ Ball Down mounting orientation (user selectable at installation)
- Multiple video and communications options include a single optical fiber connection that is free of EMI concerns
- Built-in anti-icing feature
- Automatic video target tracker for hands-free operations
- Optional embedded navigation package for accurate geodetic target location and geo-pointing
- Diode Pumped Laser Rangefinder with variable PRF (1-10 Hz)

## A PART OF THE FAMILY

The SeaFLIR family of maritime imaging systems has deployed to every corner of the globe, enduring every climate the earth can throw at it and still outperforming everything afloat. Whether you need a lightweight sensor to support 24-hour small boat operations, or an ultra-long range, all digital solution, there's a SeaFLIR for your vessel and your mission.

Its latest member, the SeaFLIR 280-HD, combines a full spectrum of ISR capabilities, including MWIR and visible light imaging with continuous optical zoom, and an optional SWIR imager for clear penetration of maritime mist and haze.
